

Originet™

FULL-FEATURED WEB-BASED ACH ORIGINATION SYSTEM

Increase profits by helping customers grow volume

Originet connects to any ACH processor whether firms have an in-house mainframe system, an outsourced ACH processor, or D+H's ACHplus™ processing system.

Delivered as an in-house licensed configuration, or as software-as-a-service (SaaS) solution through a D+H service bureau, Originet provides a compelling combination of best-in-class features that provide a competitive advantage to your institution and to your customers.

The secure web-based application includes built-in automation and risk management tools designed to reduce the frequency and severity of errors, leading to improved operations, lower costs, and faster execution.

Originet spans the entire range of ACH transaction types through a single solution. Your customers can make payroll, pay sales commissions, reimburse expenses, and pay taxes: Federal and state, all through a single webbased application. Originet

FEATURES

- Complete Web-based application
- Configurable Client Workflow
- Support of Multi Factor Authentication
- Provide Recurring Payment Sets

even accommodates complex transactions such as but not limited to distributing payments to multiple accounts of a single receiver, corporate trade payments, cash concentration and disbursements. Originet supports all Standard Entry Codes (SEC's). With the ease of use, power, and flexibility of Originet, your business customers can realize the full benefits of the ACH network, enabling you to provide a higher standard of service to your customers.

BUSINESS BENEFITS

Improved operational efficiency

Originet enables financial institutions to offer full- featured ACH capabilities to a wider range of business customers than ever before. Regardless of whether your customers use a competitor's cash management system or whether they use your retail banking platform, Origenet allows your firm to provide an accessible on-ramp to the ACH network. As an affordable, feature rich alternative to expensive cash management systems, Origenet will help your clients to eliminate their inefficient manual process through a wide range of ACH network services.

Lower operating costs and improved profitability

With Origenet forming a central part of your customers' payments interface, they will be able to originate a greater number of ACH transactions which makes your ACH business more profitable. In addition, with Origenet's centralized, web-based technology, you will benefit from a reduction in customer service and support costs.

D+H is a leading financial technology provider that the world's financial institutions rely on every day to help them grow and succeed.
